

QUALITY POLICY

Automationstechnik Sp. z o. o. specializes in the design, manufacture, assembly, supply and commissioning of equipment and assembly and automation systems, which constitute equipment for technological lines.

Acknowledging that maintaining a high level of manufactured products/services is the foundation of fruitful cooperation with clients and further development, Automationstechnik Sp. z o. o. places particular emphasis on quality, modern solutions, ergonomics and safety of implemented projects, as well as consistent compliance with clients' requirements and regulations regarding implemented products and services.

Attention to the continuous improvement of the standards of products/services performed is reflected both at the level of management and at all levels of the Company.

Each employee of Automationstechnik Sp. z o. o. is responsible for quality, knows his role in achieving the adopted goal and understands the requirements arising from this responsibility.

In order to meet the needs of customers and contractors, Automationstechnik Sp. z o. o. has implemented a Quality Management System in accordance with the requirements of PN-EN ISO 9001:2015-10, within which it has established a Quality Policy, the assumptions of which it implements based on the following objectives:

- improvement and development of the Quality Management System,
- continuous improvement of the quality of services provided through process monitoring,
- adapting the current and implementing new products to meet the growing market and technological requirements,
- creating partnership relations with all contractors, including suppliers,
- thorough analysis of customer requirements and monitoring the level of customer satisfaction,
- evaluation of identified business risk factors,
- protection of data entrusted by Customers as an indispensable element of service provision,
- continuous improvement of knowledge and qualifications of personnel,
- operating in compliance with legal regulations.

The Management Board of Automationstechnik Sp. z o.o. declares that the Quality Management System (compliant with PN-EN ISO 9001:2015-10) is continuously improved and effectively used. Its assumptions are known and put into practice, and the above Quality Policy is an obligation to Customers, Contractors and Employees, it is updated and communicated to the interested parties.
